

ViraPure® Troffer PRO

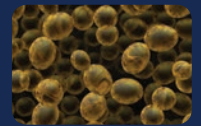

✓ The First Troffer with ViraPure® patented technology coated air filters

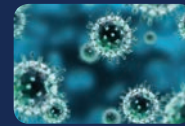

- Self air-circulation for faster airborne microbials capture
- UV-activated high density PECO photocatalyst for effective removing and decomposing the trapped microbials
- Effective against viruses, bacteria, fungi, formaldehyde & NOx

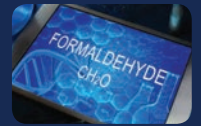

Bacteria

Fungi

Viruses

Formaldehyde

✓ Multi-Use Functionality

- ⊕ Continual air purification even at 0% dimming level
- ⊕ Provides consistent protection against airborne microbials
- ⊕ Replacing ViraPure® air filter every 3-6 months
- ⊕ Sizes:

2'x2'

2'x4'

✓ Specifications

Power Requirement	110V ~ 277V
Wattage	25W, 36W
Color Temperature	3500K, 4000K
Light Output	3125lm, 4500lm
Efficacy	125 lm/w
CRI	> 80
Power Factor	> 0.90
Coverage Area	100 sq-ft, 200 sq-ft
Dimming	0-10V Dimming
Warranty	5-year
